Re: *Lifeline and Link Up Reform and Modernization*, WC Docket No. 11-42

Dear Ms. Dortch:

On August 15, 2012, Dave Davidson, Senior Vice President and General Manager, Ohio; Chris Burke, National Funding Programs Manager; and the undersigned met via telephone with Garnet Hanly, Kim Scardino and Jay Schwartz of the Wireline Competition Bureau to discuss Frontier Communications' Broadband Adoption Lifeline Pilot Program application.<sup>1</sup>

In this meeting, members of the FCC asked questions of Frontier regarding its application and Frontier agreed to supplement its application with the following data within a week's time:

- How Frontier's proposed project service area would be divided to provide for control and test groups;
- Information on whether Frontier proposes to self-collect or have USAC collect participants' information;
- Information on the Frontier's available speed tiers, including the availability of such tiers;
- A description of how participants would interact with the digital literacy program;
- Information on participants would receive computer equipment through their participation in the program.

Pursuant to Section 1.1206(b) of the Commission's rules, this letter is being filed electronically with your office today.

Please feel free to contact me with any further questions.
